

**WHEREAS**, Epilepsy, also known as Seizure Disorder, has afflicted mankind since the dawn of our species and has been recognized since the earliest medical writings; and

**WHEREAS**, as long ago as 400 B.C., Hippocrates, the Father of Medicine, repudiated ancient beliefs that Epilepsy was a visitation from the gods and sacred or that it was a curse from the gods that people afflicted with this disorder held prophetic powers. Hippocrates believed that Epilepsy was a brain disorder; and

**WHEREAS**, Epilepsy can be caused by injury to the brain, lack of oxygen at birth, brain tumor, infection and brain hemorrhage. In sixty percent of the cases, the cause is unknown; and

**WHEREAS**, Epilepsy can affect anyone, at any age and at any time; and

**WHEREAS**, more than two million Americans are afflicted with some type of Epilepsy, of this number, 150,000 are Florida residents; and

**WHEREAS**, lack of education about this disorder has contributed to age old myths, superstitions and prejudices; and

**WHEREAS**, people who have Epilepsy make reliable and conscientious workers in job performance, productivity, safety, cooperation and attendance; and

**WHEREAS**, Epilepsy should not be a barrier to success. In addition to the normal requirements for success, a person who has Epilepsy needs a supportive environment and employers who are willing to give them an opportunity to become productive citizens.
